DETAILED ACTION

Applicant's election without traverse of claims 1-4 in the reply filed on 3/16/2006 is acknowledged.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 are rejected under 35 U.S.C. 102(b) as being anticipated by Okada et al. (6,628,689) herein after '689.

Regarding **claims 1-4**, Figs 1 and 6 of '689 disclose "a multiple wavelength semiconductor laser monolithically having a plurality of edge emitting type semiconductor laser devices [1,2] having different wavelengths [650, 780 nm],

1. wherein: a common low reflection multiple layer film [22] that is a three-layer dielectric film comprised of a first dielectric film [23], a second dielectric film [24], and a third dielectric film [25] that are successively formed outwardly,

the common low reflection film being formed to have a same film thickness is provided on light emitting facets of said plurality of edge emitting type semiconductor laser devices, (2/54-57)

and a refractive index [n2] of said second dielectric film is larger than a refractive index [n1] of said first dielectric film and a refractive index [n3] of said third dielectric film.

2. "wherein: each of said first dielectric film to said third dielectric film is one of an Al₂O₃ film, a SiN₂ film, and a SiO₂ film; (7/38-67)

3, 4. "wherein: an oscillation wavelength of said plurality of edge emitting type semiconductor laser devices is any one of a 650 nm band and a 780 nm band."
